Resume : Dr. Robert (Ritter von) GLOW had a great knowledge of School affairs of colleges and Universities in Austria and people employed there. He knows each professor, most of them through personal contact, as he was the one, who suggested their appointments. He will be of great help if information on teachers or professors of Austrian colleges or universities are required. He liked mountaineering and spent his vacations always in the Dolomites. He climbed nearly every summit there. Many well known Tyrolean cities were his friend, and accompanied him on his tour. Therefore his knowledge of Latin and North-Italian dialects.

24.) German, French, English

Resume : Through his own and his wife's family related with Austria's (emperor's or Austria's) aristocracy. Great influence on catholic circles (priests and lay out). His personal position and influence were such, that he couldn't be removed by the Nazis.

His younger son told that his father's influence broke (?) the German (Prussian) influence on school affairs in Upper Austria and that the Old Austrian way to handle school affairs and education principles is again adopted by the German authorities in Austria and even applied to Germany.

Anyhow Oskar Weiss-Touren's unmistakable influence, if not leadership, puts him between the outstanding officials and catholic representatives in Upper Austria and Vienna.

His elder son served in the Swiss Army as Instructor-Flying-Officer. His younger son is actually in England or in British controlled territory.
